FCC RECORD

CUMULATIVE INDEX

VOLUME 3

The Table of Cases is arranged alphabetically by the name of the case. If the case has a common or ambiguous title, there will be several added entries to facilitate research. For example, rule amendments should be listed both under "Amendment of Part ..." and by a "popular" name.

The other tables in this volume are arranged by the designated type of identifier. For example, the Table of Cases by Docket Number is grouped alphabetically by the type of docket, then chronologically by year, and finally, in numerical order by docket number.

The Subject Index is organized by three levels of subject division. The main divisions correspond to the main subjects in the Commission's rules, supplemented with non-rule topics, such as Adjudication, Communications Act, and other Statutory topics. Under the main topics, are two additional levels of subjects.

Because these reports were generated by a computer, alphabetizing may be different then expected. Upper case letters always sort to the beginning of the alphabet, so a company name spelled with all capital letters appears at the beginning of the letter. For example, AZ Co. will appear at the beginning of the "A"s before the Able Co. Numbers also will appear at the beginning of a list.

These finding aids were designed to assist with research in the FCC Record. Any corrections and suggestions for improvement should be directed to the Secretary of the FCC at (202 632-6410) or at 1919 M Street, N.W., Washington, D.C. 20554.
